ORCID for PGRs

It is a requirement that all researchers create an ORCID (Open Research and Contributor ID) and make it known to the University. ORCID is a non-profit organisation supported by a global community of organisations with interest in research. Your ORCID provides a unique research identifier that distinguishes you from every other researcher and links your professional activities.

Registration to ORCID is free and will mean that your research outputs can be tagged and tracked more easily throughout your career. ORCIDs are now routinely being requested by publishers and funders and it is therefore important that all researchers create an ORCID and make it available to the University.

By clicking the link below and following the onscreen prompts you will ensure that you have an ORCID and that it is connected to your student record.

Proceed to create and/or connect your ORCID to your student account

ORCID for PGRs

It is a requirement that all researchers create an ORCID (Open Research and Contributor ID) and make it known to the University. ORCID is a non-profit organisation supported by a global community of organisations with interest in research. Your ORCID provides a unique research identifier that distinguishes you from every other researcher and links your professional activities.

Registration to ORCID is free and will mean that your research outputs can be tagged and tracked more easily throughout your career. ORCIDs are now routinely being requested by publishers and funders and it is therefore important that all researchers create an ORCID and make it available to the University.

By clicking the link below and following the onscreen prompts you will ensure that you have an ORCID and that it is connected to your student record.

Proceed to create and/or connect your ORCID to your student account
Create or Connect your ORCID

When you connect your ORCID to your student account the University will request permission to write, update and delete items in the education, employment, funding, works and peer-review sections of your ORCID record.

You can request email notifications alerting you to changes that the University makes to your ORCID account; typical examples may include updating your educational affiliation or updating your account with your final thesis.

You may revoke these permissions within your account settings at any time after your programme has ended. The University will not have access to your ORCID password.

The default visibility of your profile is set to 'Public' which is the recommended setting, but you can set the visibility to limited or private.

Create or Connect your ORCID
Already have an ORCID ID? Sign In

As per ORCID's terms and conditions, you may only register for an ORCID ID for yourself.

First name: Jane
Last name: Goldman
Email: Leanda.Clayton@manchester.ac.uk
Re-enter email:

Create an ORCID password
Confirm ORCID password

Your ORCID ID connects with your ORCID Record that can contain links to your research activities, affiliations, awards, other versions of your name, and more. You control this content and who can see it.

By default, who should be able to see information added to your ORCID Record?

Email frequency

The ORCID registry provides notifications about things of interest, like changes to your ORCID record and new and events. How often would you like these notifications delivered to you via email?

Weekly summary

I'm not a robot

Terms of Use

I consent to the privacy policy and terms and conditions of use, including agreeing to my data being processed in the US and being publicly accessible where marked Public.

You must accept the terms and conditions to register.

ORCID

Open Researcher and Contributor ID

An ORCID is a unique identifier which allows you to distinguish yourself from other researchers throughout your career. They are free to create and enable authoritative links to be created between you and your research activities (e.g. research outputs, funding data, employment history).

When you create a new ORCID account there are two key components:

- A definitive record of your research activities which is available to other systems via the open ORCID registry
- A personal profile page which is available via a unique URL

Registering for an ORCID takes 30 seconds on the ORCID website. To maximise the benefit of your ORCID it’s important to keep your account up to date with your latest research outputs.

We’ve created the following guide to maintaining your ORCID account:

- Scopus user guide - PDF

Over the coming months the University is encouraging all staff and postgraduate research students to ensure that they have claimed an ORCID. To support this the Library has joined ORCID as a member organisation and created a dedicated team to help staff create and maintain their accounts with minimal input.

We’ve prepared some commonly asked questions below but if you’d like to contact a member of the support team you can email us at uml.scholarlycommunication@manchester.ac.uk or give us a call on 0161 306 1517.
PGR ORCIDs at Manchester

• 60% uptake based on comms and encouragement alone
• Expect additional uptake approaching 100% during formal collection at Y1 review stage
• Achieved through leveraging existing systems, infrastructure and relationships
Next steps

• Work with Alumni office to use ORCID data to track next destinations
• Conversations have begun with Records Office to include ORCID data in HESA return
• Consider updating ORCIDs with research outputs
• Plan for PGRs leaving the institution
• Explore using ORCID data to enrich other University systems
Thank you
